

Topic title: VET4LEC project

Brief description and main aims:

In 2017 the EU sectoral social partners for the construction industry FIEC, representing the employers, and EFBWW (European Federation of Building and Wood Workers), representing the workers, started a project, co-financed by the European Commission, entitled "VET4LEC", which stands for : Vocational Education and Training for Low Energy Construction.

Why FIEC is dealing with this issue/topic and their objective(s):

Based on the information collected in the 10 participating countries (Belgium, Bulgaria, Finland, Germany, Hungary, Ireland, Italy, Poland, Slovenia, Spain), the main aims of the project were to : evaluate different approaches to developing and delivering vocational education and training for low energy construction; provide criteria for curricula development and outline components of a core energy literacy curriculum compatible with the European policy tools; develop guidelines and recommendations on how to address the weaknesses identified.

The final report (available in BG, DE, EN, ES, FR, IT and PL) can be downloaded from the FIEC website: www.fiec.eu .

Actions and key dates:

20/2/2017 – Kick-off meeting
6/11/2018 – Final conference
