

FIEC President speaks at TEN-T DAYS 2018

On 26th April, during the TEN-T DAYS 2018, FIEC President Kjetil Tønning participated in a session dedicated to transport digitalisation.

On this occasion, he emphasised the fast growing importance of digitalisation in the construction sector and in particular for smart infrastructure (e.g. connected roads). He also advocated closer collaborative working between all players in the value chain, from the contractors to the transport operators. (see his speech for further details)

#TEN-tdays

FIEC partner of #moreEUbudget4transport at TEN-T DAYS 2018

On 27th April, during the TEN-T DAYS 2018 in Ljubljana, Slovenia, a coalition of more than 40 organisations - including FIEC - which has been carrying the #moreEUbudget4transport campaign for several months, handed over to the European Commission its official "Ljubljana Declaration".

This Declaration calls for a more ambitious EU budget for transport in the next multi-annual financial framework (MFF post-2020) taking into account the need to and strong added value of investing in this field. Specifically, the Connecting Europe Facility (CEF) should be reinforced accordingly
