

## Topic: European Construction Technology Platform (ECTP)

### Brief description and main aims:

The European Construction, built environment and energy efficient building Technology Platform ([ECTP](#)) is a leading membership organisation promoting and influencing the future of the Built Environment. First founded in 2004 ECTP brings together the collective vision for a leading edge European Built Environment on behalf of its Members. ECTP has around 150 member organisations from across the construction sector and other sectors from the whole supply chain of the Built Environment.

Its diverse membership across 26 countries, large enterprises, SMEs, universities, research organisations and professional associations allows it to take an integrated approach to tackling all relevant issues. It connects people and organisations from across the supply chain, helping them to work collectively to improve the position on many societal and industrial issues including energy, climate change, efficiency and infrastructure.

### Why FIEC is dealing with this topic:

FIEC is a member of ECTP and also has a representative on the Steering Committee. Its membership enables the federation to ensure that specific research programmes are appropriate for the construction industry. It is also a way of finding potential partners for projects, or for being invited to participate by other organisations, in appropriate research and other EU projects. ECTP is one of the co-signatories in the Built4People (B4P) partnership, launched under the new Horizon Europe programme in 2021. FIEC is expected to be represented on the Partnership Board for B4P.

### Actions and key dates:

**13/11/2019** – Election of FIEC representative on ECTP Steering Committee

**12/12/2019** – ECTP co-ordinated drafting of partnership proposal for Horizon Europe (Built4People), which was presented in a Stakeholder Meeting hosted by the European Commission.

**2020** – ECTP co-ordinated the development of the Strategic Research and Innovation Agenda, with World Green Buildings Council. Input to this document from ECCREDI.

**2021** – ECTP and World Green Buildings Council signed a Memorandum of Understanding with European Commission, DG Energy, in new partnership Built4People.
